American Rescue Plan Act of 2021: What We Know Now & What's Coming Next

The American Rescue Plan Act of 2021 (ARPA) was signed into law by President Biden on March 11, 2021. ARPA is the latest COVID relief package intended to deliver a \$1.9 trillion economic stimulus aimed at providing financial assistance to employers and individuals affected by the COVID-19 public health emergency. The most significant provisions impacting traditional HR and employee benefits are:

- further guidance and requirements for employers seeking to voluntarily extend paid benefits to employees under the FFCRA;
- extension of the employee retention credit created by the CARES Act for eligible employers;
- a temporary increase in dependent care FSA contributions; and
- a 100% fully subsidized COBRA premium for certain individuals beginning on April 1, 2021 and ending on September 30, 2021.

This webinar will provide a general overview of these provisions, address compliance concerns, and outline what employers can expect next.
